myLoc uses latest server generation - New HPE Gen10 servers with Intel XEON Skylake CPU Technology for reliable performance

Düsseldorf, 7th September 2017. Hewlett Packard Enterprise has released its next generation Proliant series! At myLoc managed IT AG you can now order the new series of HPE Gen10 ProLiant servers with the brand new Intel XEON Silver 4110 or Gold 5118 CPU based on Skylake processor technology.

If you need a server with the highest performance, flexibility and security, then you don't need to look far! At myLoc we offer you the new Proliant Gen10 servers from Hewlett Packard Enterprise as Dedicated Server, Managed Server or as part of your complete Managed Hosting solution from now on!

With the latest generation, HPE has launched the most secure Proliant server on the market and relies on the latest Intel XEON Skylake processors, which stand for reliable and exceptional performance. Just worry about which server meets your requirements. With the latest hardware technology, myLoc offers you a range of Gen10s to meet all requirements.

The Dedicated Server L - DL360 Gen10 Server - is equipped with the new Intel XEON Silver 4110 CPU, with a performance of 8 x 2.10 GHz including Hyper-Threading and Virtualisation Technology and is fitted with 64 GB DDR4 ECC RAM. The main memory of the DL360 can be expanded up to 256 GB DDR4 RAM. In the standard configuration, customers receive their server with 2 x 2,000 GB HDD or 2 x 240 GB SSD hard drives, which can be expanded to 4 x 8,000 GB HDD or 4 x 1,000 GB SSD, as well as the new iLo 5.0.

The new dedicated servers are also available to those interested in our reseller programme. With the Reseller programme, you as a reseller will be personally supported by our sales department and will be assigned a personal contact person to whom you can turn at any time with all your concerns. The reseller programme allows providers, resellers and website operators to buy myLoc products at discounted prices and resell them to you. All server products are provided in the myLoc data centres and are maintained by our own staff on site.
